# DevOps & Cloud Advisory

Canadian Bank DevOps Assistance

iVedha provided a specialized DevOps team to a Canadian Bank that required assistance in their pursuit of smooth application deployment, along with infrastructure-as-a-code through centralized blueprints.

Value: Successful migration of multiple applications for the bank efficiently.

HIGHLIGHTS:

| Created Automated upgrades & deployment of the API gateway services | Created the site reliability team from scratch | **99.999%** The service level agreement for the API gateway service | Designed an observability service to capture metrics & performance |

Mortgage Company Code Refactor & Optimization Assistance

iVedha offered a path to code refactor and optimization when a mortgage company got stuck with a complex code base in their production environment, acquired from a previous provider.

Value: Successful optimization and code refactoring.

IT InsureOps Provider DevOps Strategy and Transformation Assistance

iVedha provided assistance to a large IT Service Provider to plan a DevOps strategy within their IT Service delivery team.

Value: Successful transition to a DevOps and Agile methodology.

---
